
M Naufal Azzmi H

Software Engineer

naufalazzmi@gmail.com | +6287763043001 | Mataram, Nusa Tenggara Barat

<https://naufalazzmy.github.io/hello/>

Full-Stack Developer with 5+ years of experience in building scalable web applications. Skilled in Python, PHP, JavaScript, and frameworks like Laravel, Django, React, and Vue.js. Focused on developing APIs, system architecture, and database management. Known for delivering user-centric solutions, tackling complex challenges, and ensuring timely project completion. Strong team collaborator with a results-driven approach and a commitment to continuous improvement through the latest technologies.

Working Experience

Software Engineer, RSUD Provinsi NTB

2021 - Present / on-site

- Led the development of a hospital information system, focusing on EMR, data governance, and integration.
- Collaborated with medical and management teams to optimize data processing for better decision-making.
- Developed and maintained RESTful APIs, ensuring scalability and third-party service integration.
- Created data analytics tools for performance evaluation and ensured system compliance and reliability.
- Ensured compliance with healthcare regulations and optimized system performance for high availability and reliability.

Assistant Lecturer, Laboratory of Informatics Engineering

2016 – 2018 / on-site

- Assisted in teaching, mentoring students, and leading research projects in system development.
- Organized workshops and seminars to foster student engagement and growth in software engineering.

Content Creative & Web Designer, dolandolen.com

2016 / on-site

- Created digital content and designed marketing campaigns, enhancing brand presence.
- Designed and maintained the website, improving user experience and engagement.

Educational Background
